

Welcome to the 1th annual Re- Imagining the Built Environment: “Advancing Domicology”

- The “Dollars and Sense” of the Deconstruction and Reuse industry.
- Who is LIUNA & Why are we here?

What is Deconstruction?

Deconstruction is the careful disassembly of a structure to salvage materials or equipment or to remove some parts of a building while preserving the remaining portions.

What is Deconstruction & Reuse? And why would we present it at today's conference?

- Deconstruction & Reuse: Where do the Construction Laborers fit into this industry? \$\$\$

Workforce Development? Is this a productive industry? If so, how do we find a skilled work force?

- Do we have to make a planned effort to do some outreach.
- Is there a potential pool of workers ready to go?

Some of our outreach efforts

Our Demolition & Deconstruction class is 3-4 days of training depending on any add-ons
